BWF Group Offingen

The BWF Group is a fifth-generation owner-managed group of companies headquartered in Offingen, Bavaria. With 1,800 employees at 16 production sites worldwide, we set international standards through innovation, competence and commitment.

For our customers, we are close to the market, offer high flexibility and the shortest decision-making processes. Our product range is divided into four divisions which are independent in their markets. We are a leading manufacturer of textile filter media for industrial dust

collection, high-quality plastic products, technical felt materials and wool felts.
